Vote Scottish Liberal Democrats

Vote Hollie Baxter

The Conservative and Labour government we have had for a long time has put us into the current economic crisis and political malaise. Whereas Liberal Democrats want to make a fresh start for Britain.

WHAT I CAN DO FOR YOU:

- Give you the right to sack MSPs if they brake the rules
- Give the opportunity for everyone in Scotland to access free broadband
- Support High Speed Rail from London to Scotland which will give younger people access to big cities
- Ensure a fair future for all and create jobs for the future through a Greener Scotland.
- Lower the voting age
- End testing of household products on animals

YOUR MONEY

Us, Liberal democrats want to make the tax system fair so anyone, no matter how old or young can afford to get by. The poorest fifth of the population pay a higher proportion of their income in tax than the richest fifth and this is showing current system is unfair and we are planning to change it.

- Increasing income threshold to £10,000
- Allowing individuals to save through the UK Infrastructure Bank, (offering stable long-term returns)

YOUR FUTURE

Liberal democrats aim to support children all over Scotland.

- Cut student debts and make degrees affordable for all
- Investing extra money in schools
- To make sure children get the extra support they need in schools

YOUR HEALTH

Liberal Democrats believe that patients must come first and will scrap targets and guarantee treatment on time. We strongly agree promoting a minimum time spent doing PE lessons a week.

YOUR ENVIROMENT, ENERGY AND CLIMATE CHANGE

The Liberal Democrats have received three green lights by offering the strongest set of policies on climate change, green taxation and green living. Climate change is getting worse. Labour and Conservatives want to build new nuclear power stations. This will just increase the global security risk and nuclear has a dirty legacy. Liberal democrats don't want this. We must hand on a planet to our children which is worth living on. By helping this, we need to keep recycling.

YOUR TRANSPORT

As we all know, trains are expensive and there is hardly ever any buses going through the community. Liberal democrats aim to put a railway through Ellon, to Aberdeen making everything easier. The prices for the train will be affordable for everyone. Opening new railway stations will promote more jobs for Scotland.

YOUR SAFETY

Some people in Scotland don't feel safe in their homes or neighbourhoods. Liberal democrats would like to put 10,000 more police officers onto the streets. Liberal democrats believe the victims of violence should punish the offenders and make prisoners work. By reforming our courts we will be able to prosecute terror suspects more effectively.

OUR BRITISH ARMY

We have brave men and woman fighting at the front line and armed forces and they are very precious to Britain. The liberal democrats want to put a pay rise to the soldiers and double the rate of modernisation of forces family homes to ensure they are fit for heroes. We will reduce the number of civilian staff in the Ministry of Defence and reduce numbers of top brass officers.

LIBERAL DEMOCRATS

Set your sights on the Scotland you want and use your vote to make it happen. *Vote Scottish Lib Dem*
