

Woodview Crafts is a training facility, based in Stonehaven, whose aim is to provide a safe environment in which people with learning disabilities can receive training in all aspects of retail & craft work.

We are a non-profit making organisation where any monies raised are ploughed back into the training of our volunteers.

At Woodview Crafts we offer our volunteers the chance to learn skills which can enable them to become more independent and boost self esteem.

This can then lead to:

- ❖ *open employment,*
- ❖ *access to college/ further education*
- ❖ *independent living*
- ❖ *realising their full potential*
- ❖ *Being a valued member of their community*
