

FEEDBACK

Macduff Option B

- No need for community rooms addition to school, larger indoor court/area is more in need
- Seems like there will be a conflict in user requirements
- Existing building upgraded and outdoor sports facilities at Macduff as well as just Banff
- No to Macduff primary school project
- Still no provision for children 0-3 (currently run by Doodle Bugs) this is not part of the nursery
- Think this is OK but no provision for Doodle Bugs who need to use the facilities also
- Best option
- Major concerns about Macduff primary gym hall being used by public!!!
- Prefer this to option C
- Good – has a variety of rooms and facilities but could be better.
- Don't like this one cause they left out the squash courts
- Think option C is better
- Drop-in, would be better NOT attached to the school, seems awfully small
- Myrus sports pavilion – would like a fitness gym suite to save travel to Banff
- Most suitable option on offer. Overall less direct changes to Macduff. Some improvements are identified and offered.
- Better plan, is there a demand?
- Macduff already has enough community rooms that never get used. Younger people will never benefit from this when it is built.
- Forget
- Nice looking extension to existing school. Not enough community space/rooms
- The best option
- Very poor sports facilities for those who wish to play in Macduff or can't get to Banff. Drop in Centre in good.
- Could produce a conflict in user requirements and timing of access by groups
- Macduff primary school should be used more – after all it's a community school!! The community should be able to access the school more and at a reasonable price!
- Not enough activities for adults throughout all 3 Macduff options
- Better than A but prefer option C
