

School Travel Plans: Pupil Questionnaire (Nursery to Primary 3)

- Please run this questionnaire past your registration class on (*d a t e*) and return it to (*Teacher's Name*).
- Questions should be run by show-of-hands and will take 5 minutes. Please count responses and write numbers in the box to the right of each answer

When I tried the survey out in classrooms, I noticed that:

- Nursery children seem to respond best when asked individually (i.e. the hands-up approach doesn't really work)
- P1-3 children often change their mind so it is best to do the survey physically: all those who walk stand in one place, those who bus in another etc.
