

Application for Electrical Connection

This form should be used where a Developer wishes new streetlights in a development to be supplied from a connection to existing street-lighting apparatus belonging to the Roads Authority. The final connection must be made by the Roads Authority's contractor on a rechargeable basis and this form must be submitted at least six weeks in advance of the connection date.

1 Consent details

Title of consent:

Consent Number (e.g. S/20/07):

2 Declaration

The information I have given on this form is correct.

I confirm that the street lighting works outlined in the above construction consent are now substantially complete.

I enclose an electrical testing certificate signed by a qualified electrician confirming that the electrical installation conforms to all relevant safety standards.

I hereby request authorisation from Aberdeenshire Council to connect the above street lighting installation to the existing street lighting network.

I accept that Aberdeenshire Council will not be liable for any loss or damage caused by such connection or for any consequential costs incurred and agree to indemnify Aberdeenshire Council against any claims arising from this request. Nothing in this request will affect any liability for death or personal injury, which may attach to Aberdeenshire Council as a result of negligence on the part of the Council or its employees.
