1 Maggie's Hoosie, in Inverallochy, is a unique preserved fisher cottage that survives as a reminder of a bygone age. It is the last remaining example of this type of cottage, in its traditional condition.

2 St Combs provides an excellent access point to one of the longest and most spectacular stretches of uninterupted beach and dune in Europe. The Finnish vessel Anna drifted ashore after her engine room flooded in a storm in December 1959. The 18 crew were brought ashore by breeches buoy.
