C2 At least 25% of all housing is likely to be required to be affordable. If applicable, are you considering providing more or less than this? More 25% or Less

C3 What community benefits arise from your proposals? What would the nature of these be, and how would they be delivered?

An increase in population to the village will assist in turnover to existing local shops and services and as in the recent past, many of these types of businesses have been lost due to diminishing trade, this pattern could be reversed.

Community benefits may be material, such as community facilities, or intangible, such as affordable housing or the ability to live locally. Include elements which you anticipate may be required as developer contributions from the development (although specifics will have to be negotiated with the Council on the basis of the development proposed)

Rather than full studies it may be appropriate to undertake initial assessments to identify the scale of any works that might be required, as this will impact on the deliverability of the proposal. This assessment may be no more than an exchange of letters with appropriate agencies.
