

REVERSE VENDING FACILITY GREENER LIVING SMARTER TRAVEL

Yes you can now turn your waste into cheaper travel. Stagecoach Bluebird in partnership with Aberdeenshire Council has installed a reverse vending machine at the Ellon Park and Ride site. This new groundbreaking initiative allows people to collect and recycle used aluminium cans and plastic bottles in return for tokens, which can be redeemed for discounted bus travel. One item recycled earns one green token. The more tokens collected the cheaper the travel.
