

## **FUTURE REGENERATION**

### **WHAT I LIKE ABOUT BANFF**

- Banff has a lot of attractions for visitors and locals
- Need for investments to improve walks and woodlands, e.g. Duff House grounds; Firwood (Lucylaw Wood)
- The woodland walks and cycle paths and the floral displays
- Library and museum kept in High Street, regeneration of town centre, shops, streets
- Banff is a super place to live, but losing identity due to supermarket intrusion
- A historic town, all in a Georgian style – please respect this when planning developments
- Council to pay for overdue sports facilities at Academy – Tesco money if it comes to be used for regeneration of both towns
- Parking meters on streets free up car parks
- Why is there no signage to the “alternative coast route” from the Aberdeen to Inverness Road?
- Banff Marina is a fabulous space with no signage and very narrow footpath forcing pedestrians onto the road
- Love the Georgian etc Architecture – hate the dereliction. Please serve repair orders on these town properties so that future generations can also get the benefit
- Wonderful coastal and historic scenery – needs more signage outside to attract tourists and inside marked walkways, cycle routes, etc
- Library in Banff must be in the centre of town and needs modernisation – question over museum access when library is closed
