

School Transport Contract Awards 2015

This notice includes information on mainstream school transport contracts awarded for operation from 16 August 2015. The prices specified in the notice are based on the annualised price at the time of award. There were three "rounds" of tender.

In a number of cases contracts were awarded on the basis of package bids. These contracts are denoted by a (P) next to the supplier's name, for example (P1) or (PH). The prices specified in the notice for these contracts are based on the itemised tender prices received from the winning bidder for each individual contract included within the total package bid. It is possible that the winning price quoted for a "package" contract is higher than the lowest individual bid received for that contract. However, the package bid was successful because the total package price was lower than the sum of the lowest individual bids received for the contracts included in the package
