Publication Date	Friday February 09, 2024

1. Overview

This document has been generated from information entered into the Integrated Impact Assessment system.

This is an initiative that aims to make good food the easy choice. Food for Life Scotland aims to make good food the easy choice for everyone. they focus on the power of public food and its potential to have a positive impact on health, the environment, and the local economy. To achieve this, they work in partnership with public sector catering teams. Their key focus is on getting more fresh, sustainable, local food onto school dinner plates across Scotland. They do this by supporting local authorities to achieve the Food for Life Served Here award for their school meals service. saving would be approx. 30k

During screening 0 of 10 questions indicated that detailed assessments were required, the screening questions and their answers are listed in the next section. This led to 0 out of 5 detailed impact assessments being completed. The assessments required are:

In total there are 0 positive impacts as part of this activity. There are 0 negative impacts, all impacts have been mitigated.

4. Justification

This is an initiative that aims to make good food the easy choice. Food for Life Scotland aims to make good food the easy choice for everyone. they focus on the power of public food and its potential to have a positive impact on health, the environment, and the local economy. To achieve this, they work in partnership with public sector catering teams. Their key focus is on getting more fresh, sustainable, local food onto school dinner plates across Scotland. They do this by supporting local authorities to achieve the Food for Life Served Here award for their school meals service. There is significant costs associated with this scheme, through time it takes to administer the scheme as well as having to purchase specific products. This does not mean there would be a reduction in quality of food provided to pupils only that we are not restricted on products we can use. saving would be approx. 30k
