

# Building Standards Service Verification service Balanced Scorecard

**Key contact: Gary J Black, Building Standards Manager** 

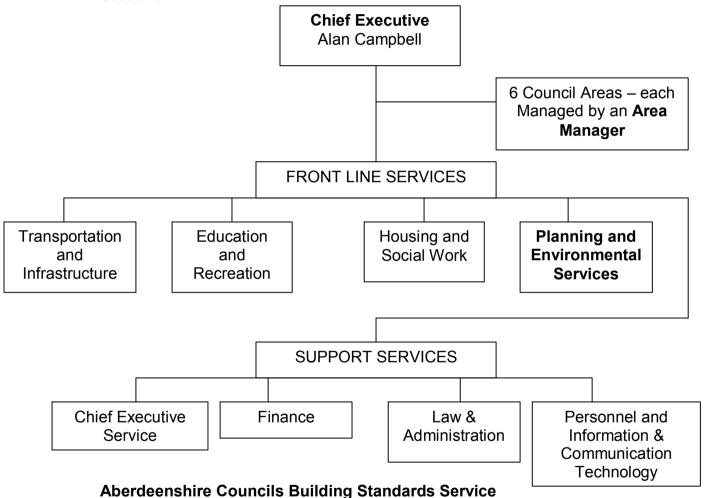

#### Aberdeenshire Council -Structure of Aberdeenshire Council

Aberdeenshire council is 6,300 square kilometres of rich farmland, towns, coastline and mountains in northeast Scotland. There are 227,000 people who reside in Aberdeenshire.

Aberdeenshire council spends over £450m each year on services and has over 11,000 employees. The councils spending per head of population is amongst the lowest in Scotland, and 9% below the Scotlish average.

Aberdeenshire's grant per head of population is 11% below the Scottish average (equal to £37.5m each year) and our Council Tax is the 8<sup>th</sup> lowest in Scotland.

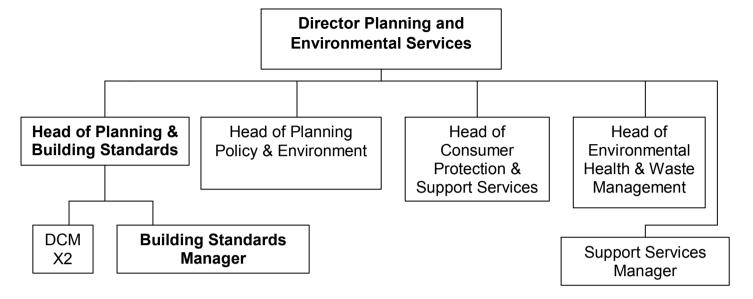

Aberdeenshire Council's Building Standards service is located within Planning and Environmental Services. Planning and Environmental Services has four core functions, which it administers, these are:

- Environmental health,
- Consumer Protection and Support services,
- Waste Management, and
- Planning (Policy & Environment and Development control/Building Standards).

## Structure of the Planning & Environmental Service – Key-reporting lines

The following organisational chart shows the key reporting relationships within Planning and Environmental Services.

## **Key Staff and Resources**

Building Standards is managed by a Manager, responsible for the delegated function of Building Standards. He is supported by 3 Team Leaders, each taking responsibility for 2 Building Standards Teams.

The service is delivered at present via Area focus, which delivers the services to the Public and customers from the following administrative Areas:

<ul> <li>Kincardine &amp; Mearns</li> </ul>	<ul><li>Marr</li></ul>
<ul> <li>Garioch</li> </ul>	<ul> <li>Formartine</li> </ul>
Banff & Buchan	Buchan

The areas of Aberdeenshire council vary greatly in population density, industry and social economic issues. As a result of this, Aberdeenshire delivers its service to these very different and diverse areas locally via our 11 locally based offices.

# **Strategic Priorities – Aberdeenshire Council**

The Strategic Plan for Aberdeenshire Council outlines the following aims:

- To maintain and improve the quality of life for everyone in Aberdeenshire by delivering first class public services.
- To protect and improve Aberdeenshire's special environment for this and future generations of residents and visitors.
- To help sustain and develop our communities by encouraging a wide range of economic activities.

# **Building Standards**

The principle objective of Building Standards is to secure the health, safety, welfare and convenience of persons in or about buildings and of others who may be affected by buildings or matters connected with buildings, further the conservation of fuel and power, and further the achievement of sustainable development.

Building Standards has 2 distinct roles, enforcement and verification. This balanced scorecard, being the first balanced scorecard for Aberdeenshire Council, covers only the Verification role at present.

Verification is principally achieved through the application of the Building Standards (Scotland) Regulations, when considering applications for Building Warrant.

## **Building Standards establishment**

Building Standards has an establishment of 29 professional staff. It is also supported at each location by Administrative assistants provided by our support Services. The 3 Team Leaders are located in Inverurie, Banff and Stonehaven/Deeside. In addition to this the composition of each team is as follows:

•	Kincardine & Mearns	4 Building Standards Surveyors 1 Information Officer
•	Marr	4 Building Standards Surveyors
•	Garioch	4 Building Standards Surveyors 1 Technical Assistant
•	Formartine	3 Building Standards Surveyors 1 Technical Assistant
•	Banff & Buchan	2 Building Standards Surveyors 1 Technical assistant 1 Building Inspector
•	Buchan	<ul><li>1 Senior Building Standards Surveyor</li><li>1 Building Standards Surveyor</li><li>1 Building Inspector</li></ul>

#### **Public Interest**

In line with discussions held between the Scottish Building Standards Agency (SBSA) and the Scottish Association of Building Standards Managers (SABSM), it has been agreed that Verifiers will have in place risk management protocols, which will determine the management of work on Building Warrants and Completion Certificates.

Aberdeenshire Council sees the Public interest as an area of vital importance in the balanced scorecard. The purpose of the initial targets as set, are to achieve a baseline for future improvement and inclusion to a subject area, which covers activities ranging from applications for Building Warrant, Completion Certificates, to provision of advice and provision of protection to buildings users via enforcement powers. Due to the need for the balanced scorecard to reflect only the verification role at present, no further mention will be made of non-verifier elements within this perspective.

#### Action Plan - Public Interest

Performance Measures to Assess Effectiveness of Actions	Desired Outcome	Target Date	Progress Made	Revised Target Date
PI-1(a), Production of a risk protocol  PI-1(b), Understood and implemented by staff	Consistent, fair and robust method of ensuring every application is given the appropriate level of consideration	September 30, 2005	Existing local systems documented and draft proposals for an Aberdeenshire wide approach	November 14, 2005 December 16, 2005
