

Vote Daniel Leask as your local representative for Foveran Community Council

Foveran is in need of a new representative at its Community Council meetings, and I believe that I would suit this position very well due to my natural, polite and approachable personality. If elected, some of my ideas include:

- An increase in speed cameras to keep the roads safer near the school
- A focus on new opportunities and support for young people wishing to start small businesses
- A drive to maintain the current features of Newburgh and Foveran and preventing them from deteriorating

While these ideas may seem small, I plan to work with the people of Foveran and Newburgh to find new and better ways to improve the communities, and conduct surveys to ensure that we know when change needs to happen.
