Description:

The subject property is a vacant primary school on a sloping rectangular site attached to Esslemont Schoolhouse (separate ownership).

To the front of the school there is a large lawn bounded by a concrete post and metal rail fence along the southern edge of the site and part of the west boundary. There is a substantial brick wall at the rear of the property and along part of the west boundary.

The buildings are brick built and harled under pitched slate and flat felt roofs with metal and plastic gutters. There are roof lights in the flat roofs. The windows are metal framed and single glazed.

Internally the building is configured to provide a main hall with stage, two classrooms and ancillary areas including WCs, a kitchen, storage rooms and circulation areas.

The classrooms have suspended mineral fibre ceilings with strip lights. The floors are solid with wood, tile, linoleum and carpet coverings. Heating is provided by an oil fed boiler to wall mounted radiators with thermostatic valves.
